What useful feedback could you provide the professor of this course? (Please be specific.)

I Absolutely loved this course. I felt like the understanding I had in this course was such that I had not previously specific and I imagine a lot of that has to do with our professor.

What were the best aspects of this course? (Please be specific.)

The best aspects of this course I felt where the labs we did that were a bit more relaxed and we were able to visually see what we were learning.

What would you change about this course? (Please be specific.)

Perhaps the time of this course was a bit too much. Friday at 3pm was kind of a drag but the topics of discussion pushed me through it.

Please evaluate your own performance in this course. That is, are you satisfied with your accomplishments in this course? If not, what should you have done differently to improve your performance and/or comprehension of the course material?

I am extremely satisfied with my performance and I believe I went above and beyond in the course not because I had to but because I wanted to.

What useful feedback could you provide the professor of this course? (Please be specific.)

This class changed my outlook on electronics and magnetism. I came in thinking that it was going to be hard and boring but Professor Hanson made it fun and explained it well.

What were the best aspects of this course? (Please be specific.)

We were able to learn in an engaging environment. Got to build circuits to see how they worked.
