Student Evaluation of Courses and Faculty

Student evaluations of faculty and courses are used for improving courses and evaluating faculty members. They will not affect your grade in the course. The faculty member will have access to the evaluations only after submitting final grades. Listed below are a number of statements which describe this course, aspects of the professor's teaching, and your own performance. Rate each of these items by marking the most appropriate response category. Rate each item as thoughtfully and carefully as possible. Your responses will remain anonymous and confidential. Thank you for taking the time to complete this evaluation.

What useful feedback could you provide the professor of this course? (Please be specific.)

Great Job with communication and planning of the project. The professor really helped me understand how to take an idea and turn it in to reality.

What were the best aspects of this course? (Please be specific.)

The ability to use the school's 3D printer and shop room. As well as the real life application experience.

What would you change about this course? (Please be specific.)

I would make this kind of study a more common class for students. Possibly creating a design of something to solve a specific problem in teams.

Please evaluate your own performance in this course. That is, are you satisfied with your accomplishments in this course? If not, what should you have done differently to improve your performance and/or comprehension of the course material?

I believe my performance in this study was great. I was able to get the project going by 3D printing over 35 pieces, setting up for wiring and programming. I learned a lot and had a great time problem solving with professor Hanson.
