Student Evaluation of Courses and Faculty

Student evaluations of faculty and courses are used for improving courses and evaluating faculty members. They will not affect your grade in the course. The faculty member will have access to the evaluations only after submitting final grades. Listed below are a number of statements which describe this course, aspects of the professor's teaching, and your own performance. Rate each of these items by marking the most appropriate response category. Rate each item as thoughtfully and carefully as possible. Your responses will remain anonymous and confidential. Thank you for taking the time to complete this evaluation.

Course Subject and # (e.g. INTD 150):

PHYS 135A

Instructor:

Hanson

Semester:

Fall 2018

Your year in college:

- ① Freshman ② Sophomore ③ Junior ④ Senior

Instructions: Use pencil or pen (blue or black ink).

Like this: ● Not like this: ① ⊗ ②

Why did you take this course? (Check all that apply)

- ① Lib. Ed. ② WSP requirement ③ Major requirement ④ Minor requirement ⑤ Elective/Interest

Student Self-Evaluation

	Disagree				Agree			N/A
1. I attended class regularly.	①	②	③	●	④	⑤	⑥	○
2. I was academically prepared to handle the material.	①	②	③	●	④	⑤	⑥	○
3. I came prepared for each class session (i.e. have read all course readings and completed assignments).	①	②	③	●	④	⑤	⑥	○
4. I actively participated in class discussions.	①	②	③	④	●	⑤	⑥	○
5. I attended scheduled office hours if I had questions about the course material.	①	②	③	●	④	⑤	⑥	○
6. I tried to relate course material to other things I know and/or study.	①	②	③	●	④	⑤	⑥	○
7. I worked to my full potential in this course.	①	②	●	④	⑤	⑥	⑦	○
8. I was satisfied with my performance in this course.	①	②	③	●	④	⑤	⑥	○
9. I had a strong desire to take this course.	●	②	③	④	⑤	⑥	⑦	○

Course

What useful feedback could you provide the professor of this course? (Please be specific.)

Sometimes it may be more beneficial to us for you to approach the algebra differently. I know you don't like to use calculators which leads you to leave numbers as radicals (ex $2\sqrt{3}$) and round numbers (like gravity) but my brain has a hard time processing those radicals. Fractions and decimals are much easier for me.

What were the best aspects of this course? (Please be specific.)

Professor was ALWAYS willing to help. He wanted to make sure we understood everything and could explain it to our peers.

What would you change about this course? (Please be specific.)

Time slot. It seems that we don't do enough labs to warrant a 2 hour class period.

Please evaluate your own performance in this course. That is, are you satisfied with your accomplishments in this course? If not, what should you have done differently to improve your performance and/or comprehension of the course material?

Very satisfied, lots of fun.

What useful feedback could you provide the professor of this course? (Please be specific.)

Make hands on activities, it might be easier to explain forces or laws by doing an activities instead of explaining an equation. Maybe some videos are something different than a long 2 hour lecture. Provide step by step equation leading up to the answer.

What were the best aspects of this course? (Please be specific.)

Office hours

What would you change about this course? (Please be specific.)

Lecture style, it's a little too long.

Please evaluate your own performance in this course. That is, are you satisfied with your accomplishments in this course? If not, what should you have done differently to improve your performance and/or comprehension of the course material?

I didn't show up to most classes, but I was able to learn by myself and receive help during office hours.

What useful feedback could you provide the professor of this course? (Please be specific.)

I personally feel that although many have taken calculus before, try to still make it easy enough for others to understand. Also, when explaining or talking try to face the class.

What were the best aspects of this course? (Please be specific.)

N/A.

What would you change about this course? (Please be specific.)

I would like for Professor Hanson to use the class time more wisely, instead of rushing through problems.

Please evaluate your own performance in this course. That is, are you satisfied with your accomplishments in this course? If not, what should you have done differently to improve your performance and/or comprehension of the course material?

What useful feedback could you provide the professor of this course? (Please be specific.)

Cutting out extra "labs" during class would give more time to explain material

Using decimals instead of fractions is easier to understand

What were the best aspects of this course? (Please be specific.)

Clicker questions were helpful

Study guides for exams were good for studying

What would you change about this course? (Please be specific.)

Less labs + "create your own problem"s

Please evaluate your own performance in this course. That is, are you satisfied with your accomplishments in this course? If not, what should you have done differently to improve your performance and/or comprehension of the course material?

Yes, I'm satisfied. I got an A

Student Evaluation of Courses and Faculty

Student evaluations of faculty and courses are used for improving courses and evaluating faculty members. They will not affect your grade in the course. The faculty member will have access to the evaluations only after submitting final grades. Listed below are a number of statements which describe this course, aspects of the professor's teaching, and your own performance. Rate each of these items by marking the most appropriate response category. Rate each item as thoughtfully and carefully as possible. Your responses will remain anonymous and confidential. Thank you for taking the time to complete this evaluation.

What useful feedback could you provide the professor of this course? (Please be specific.)

Keep using the clickers and being able to solve the problems on the white boards as a group

What were the best aspects of this course? (Please be specific.)

Being able to solve the problems as groups and helping one another out.

What would you change about this course? (Please be specific.)

Please evaluate your own performance in this course. That is, are you satisfied with your accomplishments in this course? If not, what should you have done differently to improve your performance and/or comprehension of the course material?

Overall, I struggled to understand most of the material. I'm a type of person that needs to practice and something several times in order to understand it. I wish I could have practice more and not freaked out when taking an exam.

What useful feedback could you provide the professor of this course? (Please be specific.)

I found long lectures of equations hard to follow.

What were the best aspects of this course? (Please be specific.)

The ~~professor~~ Labs helped bring all the information together really well.

What would you change about this course? (Please be specific.)

I would not make it 2 hours long.

Please evaluate your own performance in this course. That is, are you satisfied with your accomplishments in this course? If not, what should you have done differently to improve your performance and/or comprehension of the course material?

I did my best in the course.

Student Evaluation of Courses and Faculty

Student evaluations of faculty and courses are used for improving courses and evaluating faculty members. They will not affect your grade in the course. The faculty member will have access to the evaluations only after submitting final grades. Listed below are a number of statements which describe this course, aspects of the professor's teaching, and your own performance. Rate each of these items by marking the most appropriate response category. Rate each item as thoughtfully and carefully as possible. Your responses will remain anonymous and confidential. Thank you for taking the time to complete this evaluation.

What useful feedback could you provide the professor of this course? (Please be specific.)

Use more interactive methods to teach. Lectures all the time may not be the best when trying to make the material interesting for students.

What were the best aspects of this course? (Please be specific.)

practice problems, clicker problems, videos

What would you change about this course? (Please be specific.)

I wish it could be more interesting and more relatable to real life. The majority of the course was focused on deriving equations and plugging in numbers more than why the subject was interesting.

Please evaluate your own performance in this course. That is, are you satisfied with your accomplishments in this course? If not, what should you have done differently to improve your performance and/or comprehension of the course material?

Yes, I am satisfied.

What useful feedback could you provide the professor of this course? (Please be specific.)

personally, physics is the class i've dreaded taking the most. maybe examples that could apply to us as college students so we're more engaged?

What were the best aspects of this course? (Please be specific.)

i learned a lot through the homework every week, and the study guides were clear & relevant to material on tests!

What would you change about this course? (Please be specific.)

~~xxxxxx~~ Lab time during class periods are always kind of slow & nonproductive — especially when no one really understands what is going on. Maybe clearer explanations of lab activities

Please evaluate your own performance in this course. That is, are you satisfied with your accomplishments in this course? If not, what should you have done differently to improve your performance and/or comprehension of the course material?

i didn't use the physics book @ all, i could have been better about the reading

What useful feedback could you provide the professor of this course? (Please be specific.)

Give more practice problems that are similar to test questions.

Maybe create a master equations list/sheet that you post on moodle @ the beginning of the semester

What were the best aspects of this course? (Please be specific.)

Clicker problems

What would you change about this course? (Please be specific.)

Make the labs clearer + show how to use lab equipment, especially on the computer

Please evaluate your own performance in this course. That is, are you satisfied with your accomplishments in this course? If not, what should you have done differently to improve your performance and/or comprehension of the course material?

Yes, although I wish I did better on the HW assignments

Student Evaluation of Courses and Faculty

Student evaluations of faculty and courses are used for improving courses and evaluating faculty members. They will not affect your grade in the course. The faculty member will have access to the evaluations only after submitting final grades. Listed below are a number of statements which describe this course, aspects of the professor's teaching, and your own performance. Rate each of these items by marking the most appropriate response category. Rate each item as thoughtfully and carefully as possible. Your responses will remain anonymous and confidential. Thank you for taking the time to complete this evaluation.

What useful feedback could you provide the professor of this course? (Please be specific.)

I would say to count more of our work towards our grade and give us points. For example when did lab write ups, sometimes we didn't turn them in so we get any points.

What were the best aspects of this course? (Please be specific.)

The best aspects of this course were the practice problems and working out any questions we had.

What would you change about this course? (Please be specific.)

I would change the fact that we can't really see what were getting points on except for homework, exams, and attendance.

Please evaluate your own performance in this course. That is, are you satisfied with your accomplishments in this course? If not, what should you have done differently to improve your performance and/or comprehension of the course material?

I did a very good job compared to how I thought I was going to do.

What useful feedback could you provide the professor of this course? (Please be specific.)

Please find different ways to explain ideas as opposed to just crunching numbers and equations.

What were the best aspects of this course? (Please be specific.)

I loved the experiments.

What would you change about this course? (Please be specific.)

More interactive learning and less lecture.

Please evaluate your own performance in this course. That is, are you satisfied with your accomplishments in this course? If not, what should you have done differently to improve your performance and/or comprehension of the course material?

I probably could have done better in this course, but everything was very complicated.

What useful feedback could you provide the professor of this course? (Please be specific.)

Try not to talk to the board
when lecturing on a formula

What were the best aspects of this course? (Please be specific.)

N/A

What would you change about this course? (Please be specific.)

The way its taught is not very engaging.
Spending 2 hrs talking about the derivation
of a formula we won't be tested on doesn't
help during the exam.

Please evaluate your own performance in this course. That is, are you satisfied with your accomplishments in this course? If not, what should you have done differently to improve your performance and/or comprehension of the course material?

Sure

What useful feedback could you provide the professor of this course? (Please be specific.)

Sometimes the prof. wasn't very clear. Also more concrete problems demonstrated on the board

What were the best aspects of this course? (Please be specific.)

Overall, I thought the course was plan & executed well

What would you change about this course? (Please be specific.)

I would change that the be due Fridays or Sundays, b/c Saturday is an odd day to have work due.

Please evaluate your own performance in this course. That is, are you satisfied with your accomplishments in this course? If not, what should you have done differently to improve your performance and/or comprehension of the course material?

I thought I could have done better but that wasn't a critique on the course or the professor that was my own doing

Student Evaluation of Courses and Faculty

Student evaluations of faculty and courses are used for improving courses and evaluating faculty members. They will not affect your grade in the course. The faculty member will have access to the evaluations only after submitting final grades. Listed below are a number of statements which describe this course, aspects of the professor's teaching, and your own performance. Rate each of these items by marking the most appropriate response category. Rate each item as thoughtfully and carefully as possible. Your responses will remain anonymous and confidential. Thank you for taking the time to complete this evaluation.

Course Subject and # (e.g. INTD 150):

PHYS 135 A

Instructor:

J. Hanson

Semester:

Fall 2018

Your year in college:

- ☐ 1 Freshman ☐ 2 Sophomore ☒ 3 Junior ☐ 4 Senior

Instructions: Use pencil or pen (blue or black ink).

Like this: ☒ Not like this: ☐ ☒ ☒

Why did you take this course? (Check all that apply)

- ☒ Lib. Ed. ☐ 2 WSP requirement ☐ 3 Major requirement ☐ 4 Minor requirement ☐ 5 Elective/Interest

What useful feedback could you provide the professor of this course? (Please be specific.)

Offer more practice problems at the beginning. I know this course kind of changed half way through, but more practice of problem solving would be fun and better. Like board stuff where you critique our mistakes. It would be helpful for those of us who don't really do STEM stuff anymore. All of my colleagues who are in the humanities had more fun and learned more as we

What were the best aspects of this course? (Please be specific.)

FORCE!

What would you change about this course? (Please be specific.)

All the changes made halfway through keep those. The more practice and exposure the better. It gives us more opportunities to make mistakes and get useful feedback from the professor. Professor explains things so well, it will help us learn from the mistakes.

Please evaluate your own performance in this course. That is, are you satisfied with your accomplishments in this course? If not, what should you have done differently to improve your performance and/or comprehension of the course material?

I did well. I have not taken any math or science in 2 years. I had a rough start, but once the ball got rolling everything was more fun.

What useful feedback could you provide the professor of this course? (Please be specific.)

It might be helpful to have more problem sheets for practice. The more practice the better.

What were the best aspects of this course? (Please be specific.)

The use of different tools to teach. The use of computers and having mini labs increased the understanding of the material.

What would you change about this course? (Please be specific.)

Decrease the class meeting duration. I think 2 hours might be too long for sitting.

Please evaluate your own performance in this course. That is, are you satisfied with your accomplishments in this course? If not, what should you have done differently to improve your performance and/or comprehension of the course material?

I feel satisfied with my performance. I always could put more effort into my work.
